

7th HNE-Club Meeting

SAS 2014

Joint Meeting

7th HNE-Club Meeting / 5th Health Food Symposium 2014

September 8-10, 2014

Ecole d'Ingénieurs de Purpan

75 voie du Toec – Toulouse

France

We are glad to announce that the 5th Health Food Symposium and the 7th HNE-club Meeting will take place in Toulouse on September 2014

The scientific program will focus on recent advances in the knowledge of

Lipids, Peroxidation, Antioxydants and

- Protein modification
- Signal transduction and biological targets
- Chemistry, biochemistry and metabolism of lipid peroxidation products
- “Omics” (Lipidomics, metabolomics and proteomics)
- Innovative methodologies
- Nutrition and Food
- Diseases
- Ageing

These meetings are a good opportunity for scientists and students from universities, research institutes and companies, to present and discuss their recent results in the field of health food and lipid peroxidation.

The Organizing Committee

- A European event gathering world's academic researchers and food and health professionals organized by the PA3S a Midi-Pyrénées Food & Health Consortium and the international HNE Club, an informal group of researchers with wide interests spanning all aspects of lipid peroxidation.

- ▶ A science and business meeting mixing scientific lectures and technical exhibition.
- ▶ A meeting on “” through multidisciplinary approaches.
